## Pre-Placement talk by Securemeters

Date: Mon, Jan 25, 2021 at 6:29 PM

Subject: MBA (HR) campus hiring 2021

To: IIC/Banasthali Vidyapith <[iic@banasthali.in](mailto:iic@banasthali.in)>

Cc: Devershi Vyas <[Devershi.Vyas@securemeters.com](mailto:Devershi.Vyas@securemeters.com)>, Vivek Gupta <[Vivek.Gupta@securemeters.com](mailto:Vivek.Gupta@securemeters.com)>

Dear Avichal,

This is in reference to our discussion regarding hiring of MBA (HR) . We have kept 60% throughout as minimum criteria. Shortlisted students name meeting the criteria are attached.

Campus Plan

29th Jan :

- Preplacement talk : 10:30 AM - 11:30 AM

## **Bio Science and Bio Tech**

In order to keep up the pace with the global development in the scientific fraternity during COVID-19 pandemic, the department organized a series of webinars and online workshops for the students and faculty members. International webinar on 'Genomics, transcriptomics & molecular pathogenesis of SARS-CoV-2' was organized on August 17, 2020. Several distinguished speakers including Prof. Peter Forster, University of Cambridge; UK, Prof. Miguel Angel Esteban, Guangzhou Ins. of Biomedicine & Health, China; Prof. Rahul Narang, MGMIS, Wardha (Maharashtra); Dr. Prashanth N Suravajhala, Birla Institute of Scientific Research, Jaipur (Rajasthan), Dr. GyaneshwarChaubey, Banaras Hindu University, Varanasi (UP); Dr. Vinod Scaria, Institute of Genomics & Integrative Biology, New Delhi; Dr. Pawan Maurya, Central University of Haryana, Mahendragarh; Dr. Tikam Chand Dakal, Mohanlal Sukhadia University, Udaipur (Rajasthan) deliberated molecular pathogenesis, metatranscriptomics, genomics, health hazards associated with SARS-CoV-2. 'Artificial Intelligence in Biomedical Informatics' was organized October 06, 2020, followed by 'Proteomics' wherein industry experts from Cytiva (previously GE Life Sciences) discussed the principles and case studies of gel-based proteomics. On December 12, 2020, a webinar on 'Molecular diversity of Zingiberaceae plants of Northeast India' and 'Application of flow cytometry to plant science' was organized dated December 20, 2020. Dr. Santosh Kumar Tiwari, Senior Assistant Professor, Department of Genetics, Maharshi Dayanand University, Rohtak in his talk on 'Research in Biological Sciences: Future prospects' dated March 2, 2021, explained the students the latest developments in the field of biological science and shared his research achievements. He also discussed the gaps in research that need to be filled through meticulous analytical approach. Further, to give industrial exposure to the students a webinar on 'Nucleic acid extraction and quantification' was organized by Innovation Labs, Merck. On International Women's Day, a discussion was held to bring out the importance of women as role models and as vital building blocks of society. As we know, role models represent an idea, a reality, and expand what is possible. There is need of more women role models, who can inspire other women to aspire, aim higher and achieve the impossible. Deriving inspiration from this thought process, the theme of "Women Inspiring Women: Why do we need relatable role models?" was chosen organized by Pratham Skilling on March 8, 2021. Dr. Chandra Pal Singh, Assistant Professor Department of Botany, University of Rajasthan, Jaipur, highlighted the role of micro RNAs in host pathogen interaction in his talk on 'MicroRNA - Fine tuner of host-pathogen interactions' dated March 12, 2021. Prof. Ashish Bhatnagar, Head, Department of Microbiology, Director, Algae Biofuel & Biomolecules Centre, Kanad Vigyan Bhavan, Maharshi Dayanand Saraswati University, Ajmer deliberated on the topic 'Algal Biotechnology for the Desert' on March 13, 2021. He emphasized the immense commercial applications of algae available in the Thar desert. On March 21, 2021, Dr. Anish Nag, Assistant Professor, Department of Life Sciences, CHRIST

University, Bangalore highlighted the significance of phytometabolites as antiviral agent with special reference to Piperine in ‘Research in Biological Sciences: Piperine as an antiviral drug, an in-silico study’ (March 21, 2021). Dr. Amar Pal Singh, Staff Scientist, National Institute of Plant Genome Research, New Delhi, gave a talk on ‘Prospects application of biotechnological tools for improving plant growth and development: Exploring the hidden half of the plants’ (March 25, 2021). Dr. Tapan Kumar Mondal, Principal Scientist, ICAR-National Institute for Plant Biotechnology, New Delhi, emphasized on the therapeutic importance of tea and an antioxidant and explored his research work on the use of biotechnology for enhancing the commercially relevant properties of tea in his talk on ‘Biotechnological interventions for the improvement of Tea’ dated March 26, 2021. Dr. C. Bharadwaj, Principal Scientist, Indian Agricultural Research Institute, New Delhi, on March 27, 2021, expressed his thoughts on ‘Genomic associated breeding in chickpea’. Prof. Partho Roy, Department of Biotechnology, IIT Roorkee, gave a talk on the topic ‘Role of natural products in disease mitigation’ dated March 27, 2021. He pointed out the role of plant secondary metabolites in disease management. He said that the traditional systems of medicines should be validated through research, which may lead to the discovery of novel natural therapeutic agents. Inculcation of entrepreneurial skills in students is need of the hour. Thus, a webinar on ‘Entrepreneurial Ideation’ was organized on March 30, 2021, wherein Shri. Sandeep Mehto, Co-founder of initiative Bharat Calling and Vikalp, told the importance of out of the box thinking and way of execution of ideas to run a start-up.

In a Guest lecture (August 23, 2020) by Dr. Poonam Tiwari, Senior Research Fellow, CSIR-National Botanical Research Institute, highlighted the problems associated with various biotic and abiotic stress on plants, which adversely affect the crop yield. In her topic ‘Molecular & Functional Characterization of Abiotic Stress Responsive Gene’, she discussed about various genes, which express during stress and their functions. Another lecture was given on ‘Understanding the molecular effects of hypobaric hypoxia: Diagnostic and therapeutic possibilities’ by Yasmin Ahmad, Scientist D, Peptide and Proteomics Division, Defence Institute of Physiological and Allied Research, New Delhi, dated December 19, 2020. Hypobaric hypoxia is a condition where the body is deprived of a sufficient supply of oxygen from the air to supply for body tissues whether in quantity or molecular concentration. He discussed the pathophysiology and remedies of the disease.

Hands-on training was provided to the students through online workshops. Mr. Avinash Dhar, Program Manager - The Genome Education, Bionivid Technology Pvt. Ltd., Bengaluru, Karnataka, in ‘Online workshop on impact of genomics in everyday life’ held on March 16, 2021, helped the students to understand the functions and operation of software needed in the work of genomics. Dr. Prabhakar Mittal, Managing Director, Sarsuag Enterprises, Vellore, was an invited expert in the workshop ‘Protein purification and characterization’ held on March 28, 2021. In order to acquaint the students with plant

diversity a webinar cum workshop on 'Evolution of plants - from Cryptogams to Phanerogams' was organized on March 31, 2021.

## Department of Journalism and Mass Communication

### Interactive Sessions & Workshops

- The Department of Journalism and Mass Communication organized a day-long online workshop on 'TV Programme and News Presentation' which was held on 12.09.2020. Mr. Gaurav Sharma, Anchor, DD News, Jaipur, mentored the workshop. Mr. Sharma shed light on the writing techniques for Television. He delineated the techniques of PCR, MCR, Studio Operations and offline, online production of the TV channel. The students interacted with the mentor with full enthusiasm. The mentor organized some activities for the students on how to develop communication skills such as speaking extempore, holding discussions and effectively developing interpersonal communication as required for Television anchoring.
- Department of Journalism and Mass Communication, Banasthali Vidyapith organized, a two Webinar cum Interactive Session on Digital Media and Online Journalism for Post Graduate Students on 13<sup>th</sup>-14<sup>th</sup> September 2020. Workshop was mentored by Ms. Tanu Kapoor, Senior Social Media Manager, Times of India, Noida. She made students learn about various social media platforms used in News Writing, Content Creation and Marketing for the Netizens through hands on training. The students were oriented regarding the power of Twitter, Facebook and Instagram in Newsroom. Under *Lets Play Social Media* the students had fun activities for how Social Media helps Journalists break news. She shared her experiences with future journalists. This session was very interactive and valuable for women journalists. Ms. Kapoor acknowledged Banasthali Vidyapith efforts for nurturing women journalists for the social improvement in the country.
- Department of Journalism and Mass Communication, Banasthali Vidyapith organized, Webinar cum Interactive Session on 18<sup>th</sup> October 2020. Theme was '**Investigative Journalism and TV News**'. Workshop was mentored by Mr. Shripal Shaktawat, Senior Editor , Network 18, News 18 Rajasthan , Jaipur. He shared his vast experience with future journalists. During the session the mentor highlighted the need for the development of marginalized sections of society. The expert advocated for practicing ethical and impartial journalism. This session was very interactive and valuable for women journalists. Mr. Shaktawat acknowledged Banasthali Vidyapith efforts for nurturing women journalists for the social improvement in the country.

- ‘Photographer can click images to preserve memories but photojournalists capture moments in time, conveying a message to inform and educate reader’. The Department of Journalism and Mass Communication organized a webinar cum interactive session on “**The Role of Photographs in Journalism**” on 26<sup>th</sup> October, 2020. The Webinar was mentored by Mr. Purushottam Diwakar, Senior Photojournalist, India Today Group, Jaipur. To motivate students of journalism for Ethical Journalism, the expert emphasized on the need of skill inculcation among them. The interactive session was designed in such a way that practical knowledge and theoretical knowledge could go hand in hand. ## **Department of Economics**

Department of Economics organized a ‘Workshop-cum Hands-on Training on Statistical Methods’ during May 1-2, 2021. The workshop aimed at imparting hands-on training of statistical and econometric tools using R and E Views packages. Conducted in online mode the workshop ensured uninterrupted learning of students even in the times of the pandemic.

This workshop was attended by the undergraduate and post graduate students, research scholars, faculty members of Banasthali Vidyapith as well as by participants from other premium institution of India. Dr. Md. Zulqar Nain, from Aligarh Muslim University and Dr. Qazi Azhar Jamal from Banasthali Vidyapith were the resource persons.

The workshop commenced with the opening remarks of Dr. Swati Shastri, Head, Department of Economics. Dr. Shastri highlighted the use of econometrics software in the field of economic research.

Sessions on Day One of this workshop were conducted by Dr. Md. Zulqar Nain. Dr. Nain started with the basic introduction of E views package and familiarized participants with concepts of work files, samples, series and groups, data functions, data clearing and basic graphs in EViews. He focused on descriptive statistics, correlation and regression and other tools of time series analysis. The sessions were interactive and helped the participants in taking their first step in learning econometric packages for research.

Sessions on Day Two were conducted by Dr. Qazi Azhar Jamal, Assistant Professor, Department of Mathematics and Statistics, Banasthali Vidyapith. He started with an introduction to various statistical packages such as FAME, MATLAB and Stata. He then focused on R package and R library. He demonstrated the working and coding in R and paid special attention to computation of matrices. Another interesting session on day two was about using graphics in R.

The workshop concluded with the remarks by Dr. Swati shastri. She thanked both the resource persons and congratulated the participants for the successful completion of the program.
