ON

Search Engine Optimization using Fuzzy

An artificial neural network is configured for a specific application, such as pattern recognition or data classification, through a learning process. Just like biological systems involve adjustments to the synaptic connections that exist between the neurons, artificial neural network also works on the same principle. The work described in this seminar does not have the intention to compete with existing systems, but tells how an artificial neural network can be used to recognize handwritten character. It aims to design systems which are able to recognize handwriting.

Vodafone
Power to you

Vodafone India is a 100% subsidiary of Vodafone Group. It commenced operations in 1994 when its predecessor Hutchison Telecom acquired the cellular license for Mumbai. Brand Vodafone was launched in India in September 2007, after Vodafone Plc. acquired a majority stake in Hutchinson Essar in May 2007. From a single operation base with 31 million customers, the company has expanded its operations across the country to cover all 22 telecom circles and service 180 million customers. This journey is a strong testimony of Vodafone's commitment and success in a highly competitive and price sensitive market.

Workshop on LaTeX

July 24, 2018

About LaTeX

LaTeX is a document preparation system for high-quality typesetting. It is generally used to write technical or scientific documents but it can be used for almost any form of publishing. LaTeX is based on the idea that it is better to leave document design to document designers, and to let authors get on with writing documents.

About the Workshop

This workshop aims at introducing LaTeX and how to write a scientific document in LaTeX. The workshop will be a complete hands-on training.

Course content

1. Introduction to LaTeX
2. Various types of a Document and their Levels
3. Typesetting Mathematical Symbols and Equations
4. Creating Tables
5. Inserting Figures
6. Generating Bibliography
7. Preparing Slides

Who can apply?

Students of M.Sc. Final Year (Mathematical Sciences)

Those who want to participate are required to register their name in CMS Office by the noon of July 23, 2018.

Time: 09:15 AM, July 24, 2018
