Being an integral part of the innovative five fold education system, the Vidyapith organizes multiple sports and cultural activities in which students from across the university are invited to participate. With a strong belief that 'Universities have the core responsibility of promoting cultural harmony and Indian Ethos', the cultural activities are organized both at the department level and the university level. The better performers are selected through a rigorous process to compete in regional, national and international events.

At departmental level student clubs organize events on fortnightly basis where a plethora of activities take place from cultural activities to current events. Under 'Panchmukhi Shiksha' interested students take up various activities of their interest like singing, playing musical instruments, indoor games etc. Students are also prepared to participate in youth festivals organized across the universities throughout the university.

To promote nationalism and religious harmony, important days and festivals like Gandhi Jayanti, Diwali, Eid, etc. are celebrated with utmost sincerity and fervor in the campus.

Similarly the world class sports infrastructure paves the way for participation of students in Basketball, volleyball, Cricket, Hockey, Tennis, Equestrian etc. The Vidyapith also has a DGCA recognized flying club providing unmatched opportunities to students to touch the sky using the five aircrafts and simulator.
